Al-Rasikh Capability of Field Testing

2- Field equipment test capability at Al-Rasikh

2-1 Introduction

Al-Rasikh Co. has many special test equipment suitable for making the required tests for all the projects that been performed by our staff or other contracting companies.

Al-Rasikh policy is to provide testing services with high quality standards for the local projects depending on high trained and experienced staff with official training certificates.

The testing equipment was supplied from famous in ternational firms such as:

- OMICRON
- MEGGER
- FLUKE
- HIPOTRONICS and others

PFL20M1500
Power Cable Fault Locator System

MTO3XX Series
Automated Six-Winding
Transformer Ohmmeter

OIL PURIFIER AND DEGASSING M/C

VACUUM EVACUATION SYSTEM

MCT3605
Midis-Fag Automatic Current
Transformer
Saturation, Ratio and Polarity Test
Set.

OTS80PB and OTS60PB
Portable oil test sets

Battery Test System

DITA4000 Series
12 KV Insulation Diagnostic System

TM1800
Circuit Breaker Analyzer System

FREJA 400-series
Relay Test System
